About Me

I'm Tharaniresh, a 2nd-year student at Amrita Vishwa Vidhyapeetam, passionate about web and app development with a focus on Flutter and Firebase. I wanted to be an entrepreneur. As a Web and App Developer, I'm working on a startup, and I have honed my skills in Flutter and google firebase. For the web development side, I work on HTML, CSS, Javascript, React Js, and blender.

I am working in a startup for an agricultural e-commerce app.

Created a bakery app using Flutter and Firebase Storage to fetch data. Users can view product details and place orders. The integration made the app fast and reliable. Excited to explore more mobile app development possibilities!

I Developed a web chat application using React Js and Socket.io
